INTERNET SAFETY and PUBLIC COMPUTER USE POLICY

Welcome to the Jackson George Regional Library System. It is our pleasure to provide computers for public use. Users must adhere to the policies adopted by the JGRLS Board of Trustees and all relevant local, state, and federal laws.

Internet Safety Policy: It is the policy of JGRLS to prevent user access over its computer network to, or transition of, material via internet, electronic mail, or other forms of direct electronic communications in violation of the *Children's Internet Protection Act* (CIPA). To the extent practical, steps shall be taken to promote the safety and security of users of the JGRLS online computer network when using electronic mail, chat rooms, instant messaging, and other forms of direct electronic communications. Internet filtering is conducted for all public access computers by a centrally located filtering system. This system filters internet requests as they leave the library system. Specifically, as required by the CIPA, blocking shall be applied to visual depictions of material deemed obscene or child pornography, or to any material deemed harmful to minors.

 2. Depicts, describes, or represents, in a patently offensive way with respect to what is suitable for minors, an actual or simulated sexual act or sexual contact, actual or simulated normal or perverted sexual acts, or a lewd exhibition of the genitals.
 - a. Sexual Act; Sexual Contact: The terms “sexual act” or “sexual contact” have the meanings given such terms in section 2246 of title 18, United States Code.
